working with dunk design

how we work with clients

we work with our clients in the way that best suits their business

each client has a dedicated Account Director, and everyone in the business is fully briefed on current projects

we can be briefed either in person, over the phone or by email and present work back to clients in the method they prefer

we are used to briefing other agencies when we are the main supplier, or working closely within their guidelines if they are taking the lead

our strengths

we aim for a thorough understanding of our client's customers and communicate brand / product / service messages to the customer base in verbal and visual terms they can identify with

our strong project management skills help reduce the amount of stress felt by our clients. Our aim is that our clients enjoy working with us

the extensive technologies available to us both in house and through our supplier network enable us to offer a wide range of creative design and production options

we have worked hard to establish good relationships with our network of suppliers to ensure consistent and exceptional quality and good value for our clients

what we can offer you

dedicated account director - one point of contact

strong network of partners

leading edge technology, securely backed up

regular updates on projects - agreed up front with client

fast turnaround times with no compromise on quality

commitment to making your budgets work harder for you and bringing you measurable results
